

GS3

Light and Shadow Design Aesthetic

The smooth waistlines run through the sides of GS3, underscoring a distinguished style.

Stylish Exterior

Self-actualization Unhindered

Light and Shadow Sculpting 2.0 Design

- Flying Dynamics integrated chromed grille

The powerful and futuristic grille showcases GS3's youthful energy.

- Floating roof design

A stylish look completed by putting together the chromed trim, roof rack, and hidden D-pillar.

- Concealed anti-pinch power sunroof with unobstructed view of the sky

- Aluminum alloy roof-rack rails

- Sporty slingshot autosculpt

- 18-inch sculpted aluminum alloy sports wheels hub

Sharp design, dynamic movement.

- Eagle-eye lens headlights
- LED strip daytime running lights

Feel the power at a glance.

- Horizontal dual 8-shaped taillights

The ignited LED taillight shows a "∞" infinity symbol, making its distinctive design all the more artful and futuristic.

Race Gracefully

Stylish design inspired by the oval shape of race tracks.

- “Race rack” ellipse design

The design of interior frame, buttons and trim board extensively appropriate the arc shaped elements, creating an elegant look that's highly recognizable.

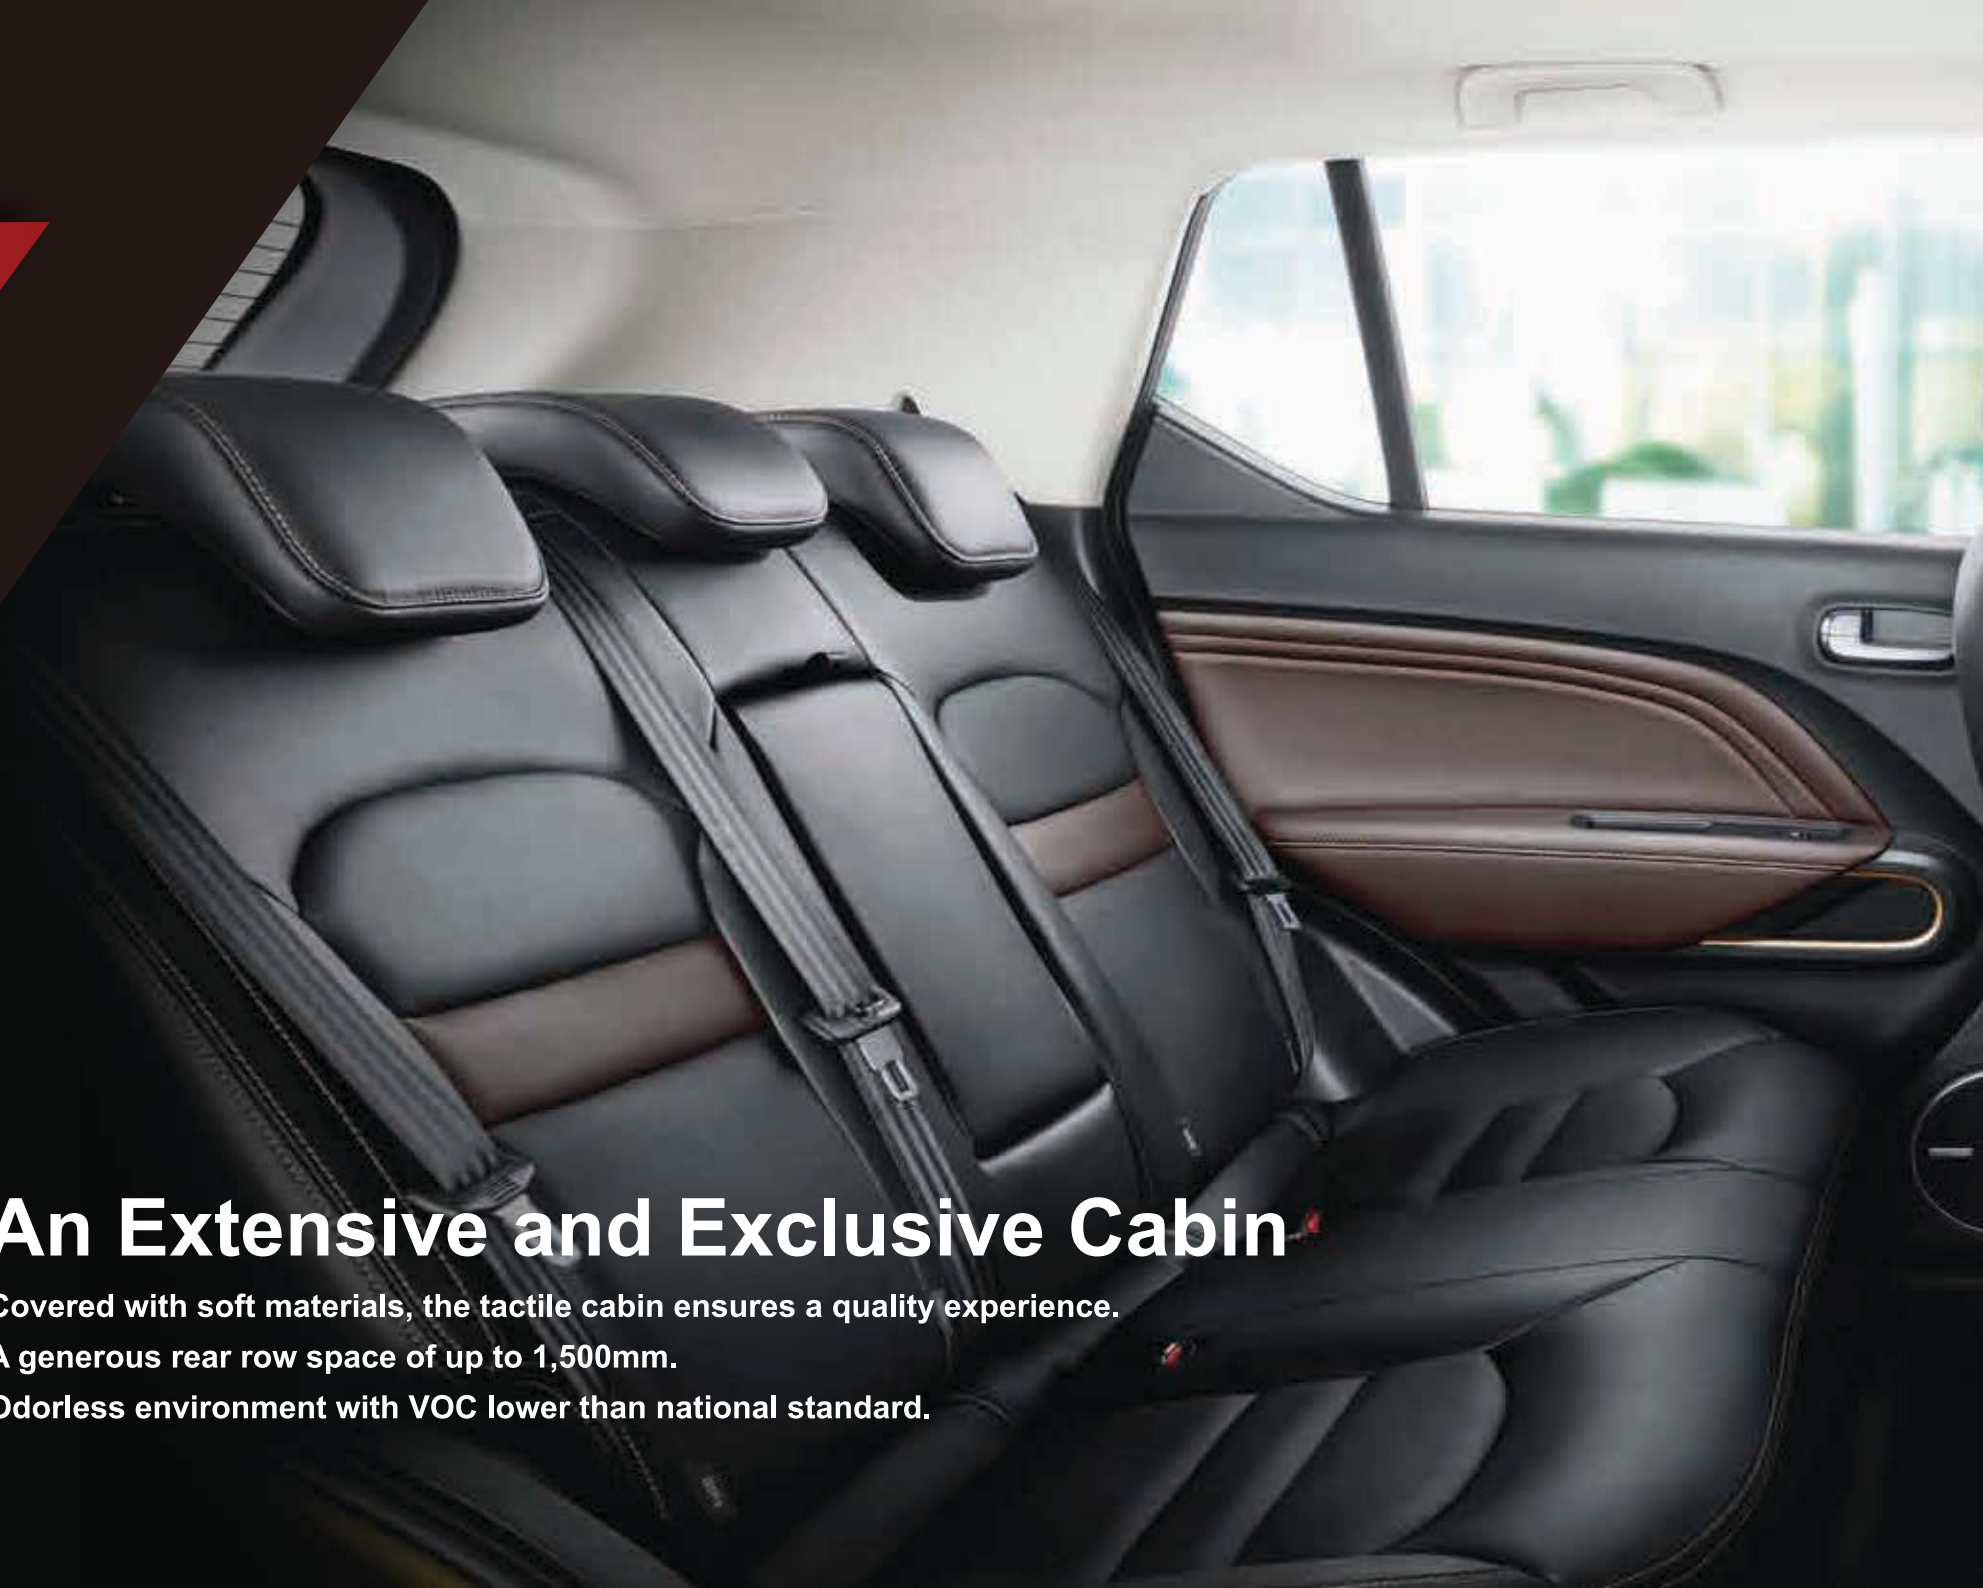

An Extensive and Exclusive Cabin

Covered with soft materials, the tactile cabin ensures a quality experience.

A generous rear row space of up to 1,500mm.

Odorless environment with VOC lower than national standard.

Trigger Intelligent Life and Set New Trend

- HD Full-color 8-inch touch screen

- **GPS 3D voice navigation system**

GPS navigation system ensure more intelligent route planning and more precise navigation.

- **Electronic Parking Brake (EPB) Autohold**

Intelligent parking without traditional hand brake rod.

- **Adaptive cruise control**

It can be activated at low speed, and the speed can be adjusted freely. The speed control is stable and precise.

- **PEPS keyless entry and one-button start**

The remote control smart key is able to recognize the driver within a certain scope. Together with the one-button start device, you can start/stop the vehicle by pressing the button lightly.

Smooth and Smart Driving

GAC second generation 200T engine, boasts powerful start and smooth acceleration.

The all new Aisin 6-speed automatic/manual transmission combines smart handling with driving comfort to improve operation experience.

Smart Handling and Enjoyable Driving

- **McPherson independent front suspension and torsion beam rear suspension**

A perfect balance between road condition feedback and driving comfort.

Easy handling helps you to drive freely.

- **GAC second generation 200T engine**

Featuring advanced technologies including Gasoline Combustion Control System (GCCS), low-inertia electric E-Turbo and Dual Continuously Variable Valve Timing (DCVVT), the 2nd-Gen 200T engine delivers large torque, low fuel consumption, and low-noise power experience. Expect smooth and robust performance at low rpm with swift acceleration. GAC 2nd-Gen 150N engine is also provided as an additional option.

- **The all new Aisin 6-speed automatic/manual transmission**

The 3rd-Gen Aisin 6-speed automatic/manual transmission ensures a balance between power efficiency and fuel consumption, delivering smooth and comfortable gear shifting experience.

Comprehensive Protection, Worry-free Driving

Advanced safety technologies for better protection.

GAC2.0 high-strength steel body work for ultimate safety

- **Six safety airbags to protect passengers from all sides**

Comprehensive passive safety protection.

- **Wide-angle reversing assistance system with auxiliary lines**

With dynamic auxiliary line and radar alert, the system displays the rear camera image on an 8-inch center console screen, making parking and reversing safer and more convenient.

- **Direct Tyre Pressure Monitoring System**

Tyre Pressure Monitoring System (TPMS) monitors tyre pressure in real time, effectively displays tyre pressure condition and sounds alarm automatically in case of abnormal tyre pressure.

- **Bosch Electronic Stability Program (ESP)**

Bosch Electronic Stability Program (ESP) rectifies over-steering and under-steering with up to 6,000 times/min of driving condition inspection.
