

**GS8**  
*BORN TO BE AMBITIOUS*

**Intelligent specifications,  
exploring the unknown world**

**7-seat model,  
conquering the boundaries of your mind**

**Intelligent Interconnection**

**PEPS With Keyless Entry And One-Button Start Function**

**Harman-Kardon Entertainment System & 10 Onkyo Speakers**

**Mobile Phone Wireless Charging**

**Suspended Encircled Luxury Cabin**

**A Spacious Interior Allows For 7 Seats Arranged In 3 Rows**

The 1.9m width of the GS8 is utilized to comfortably seat a total of 7 passengers. A diversified combination of layout configurations offers unprecedented comfort to meet the travel demands of large families.

**Supersized Panoramic Sunroof**

Impressive scenery can be glanced through the supersized panoramic sunroof that is 1.35m in length. With anti-pinch functions, the one-button sunroof is complimented by a large side scuttle imitating the leveling of a yacht to increase lighting within the cabin.

**Plush And Multi-Functional Front Leather Seats**

The ergonomically optimized and configurable front row can help you find your ideal posture. A 10-direction electrically adjustable driver seat and 4-direction passenger electrically adjustable front seat ensure an exclusive experience of comfort.

**Wide Rear Row Space With Inclinable Seats**

Second row passengers can take advantage of the EZ-entry function as the inclinable seats are also capable of sliding to provide a maximum leg room of over 1m.

**Ultra-Large Trunk Space**

Intelligently diversified trunk space capacity can store various kinds of luggage by flattening the third row seats to realize a trunk volume more than 860L. The flexible space can also provide the place for entertainment during the journey.

# All-terrain fearless and smooth driving

## Multi-Terrain Driving Modes

An assortment of six configurable driving modes (sand/mud/snow/smart/sport/economic mode) can be seamlessly activated to ensure fidelity on all road conditions.

## 6-Speed Automatic Transmission Produced By Aisin

With an accumulated 10 million km of endurance testing, the transmission produced by Japan's Aisin has outstanding performance in fuel consumption.

## GAC MOTOR 320T Engine

The breathtaking performance efficiency is achieved through the equipped BorgWarner low-inertia E-Turbo technology that helps the engine to generate 320N.m of Torque output from 1750 RPM. At a constant speed of 90km/h, the fuel consumption per 100 kilometre remains not more than 9.3L.

When conquering any challenge, you will find that an integral component is yourself. The only way to conquer yourself is to pursue the best way forward.

## Longitudinal Matrix LED Headlamp

Only with true clarity can the real world be seen. We have created advanced LED headlamp, complimented by a cornering assistance function to make driving safer. The matrix design, rectangular layout, and adjustable sensitivity unify technological functionality and a glamorous appearance.

## Double U-shaped Tunnel-type LED Combination Tail Lamp

Whilst looks can be copied, personality remains unique. The GS8's trademark double U-shaped tail lamps incorporate a tunnel structure and gradient design to create a futuristic style in a multidimensional space; the spirit of freedom lies in the quality of details.

## 19-inch Sports Alloy Wheel Hub

High-performance tires command traction amongst various road surfaces, in addition to reducing wind resistance and improving fuel efficiency.

## Brand-new Flying Dynamics Front Grille

Unforgettable in its presence, the powerful horizontal lines of the chromium plated-grilles perfectly combine strength and beauty. In addition to a domineering appearance, the brand new vigorous Flying Dynamics design shall be the totem of your conquests.
