TRUCKS & BUSES

MKB210 - tomorrow's trucking today ...

Nissan Diesel's UD Fighter is well known by those in the transport industry as a vehicle that has been designed to handle the rugged conditions of East Africa's on and off road conditions.

Powered by a superior Nissan Diesel direct injection diesel engine the MKB 210 has a power output of 180HP with a 6 speed gearbox. With a carrying capacity of just under 10 tons the MKB 210 has a heavy duty suspension giving superior road handling.

Add to this, a longer chassis and the highest ground clearance and the MKB 210 is ready to take care of your transport needs. And there is no limit to the versatility of the MKB 210, whether you need a bus, a tipper, tea carrier, closed cargo or any other body configuration, the MKB 210 is the perfect choice.

Add to this Nissan Diesel's extensive warranty and the widest network of parts and service backup at any branch of CMC Motors countrywide then there is only one choice - the Nissan Diesel MKB 210.

Spacious cabin Increased leg room

Concentration and confidence. It's what every driver feels with superb frontal and lateral visibility, responsive controls, exceptional maneuverability, and powerful braking. Every haul is smoother and more efficient.

Increased leg room

For more comfortable long-distance driving, the cab's uncluttered floor space provides ample leg room between driver, passenger and dashboard.

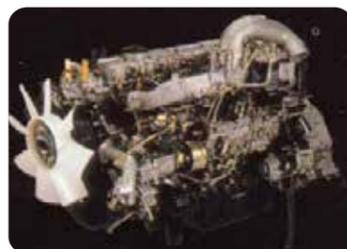

ELR-type seat belt

ELR (Emergency Locking Retractable) -type seat belts are optional for both the driver and the passenger.

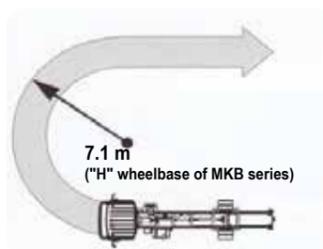

Efficient gearshift

A short-stroke gearshift lever enables fast, precise shifting.

FE6B (180 PS)

The cornerstone of every UD Fighter is a powerful engine giving longer engine life with lower maintenance costs.

Small turning radius

A sharp wheel-turning angle and COE (cab-over-engine) design give MK series trucks a tighter turning radius, critical for maneuvering in congested inner cities.

Nissan Diesel MKB210 - Specifications

TRUCK/BUS

WHEEL BASE	SWB	LWB
Wheel base (WB) mm	4575	5218
Overall length (OL) mm	7550	8528
Overall width (OW) mm	2200	2200
Overall height (OH)	2445	2445
Frame height (front) (FHF) mm	765	765
Frame height (rear) (FHR) mm	875	875
Front tread (FT) mm	1760	1760
Rear tread (RT) mm	1675	1675
Rear overhang to frame end (ROF)	1980	2360
Cab to rear axle centre (CA) mm	3605	3605
Ground clearance (GC) mm	210	210

MASSES & WEIGHT

Chassis and cab - cowl (kg)	2700	3000
Payload, body and crew (kg)	6925	6925
Permissible GVW (kg)	9900	9900
Front axle capacity (kg)	3700	3700
Rear axle capacity (kg)	7500	7500

ENGINE

Model - Nissan diesel motor FE6B
 Type - 6 cylinder, direct injection, water cooled, in-line diesel engine
 Total piston displacement 6925 cc
 Maximum gross output 180 hp @ 3000 rpm
 Maximum torque NM 450 Nm @ 1600 rpm
 Maximum engine speed 3200 rpm

TRANSMISSION

Manual - Nissan diesel 6 forward + 1 reverse. Synchromesh on 2nd to 6th gear.
 Constant mesh on 1st and reverse gears.

JTYRE & RIM

Tyre- 265/70 R19.5"
 Rim-6.5 R19.5"

STEERING

Adjustable tilt . power steering

SUSPENSION

Front - semielliptic leaf springs with anchor at front and shackle at rear with telescopic shock absorber
 Rear - semielliptic main and helper leafsprings with anchor at front and shackle at rear.

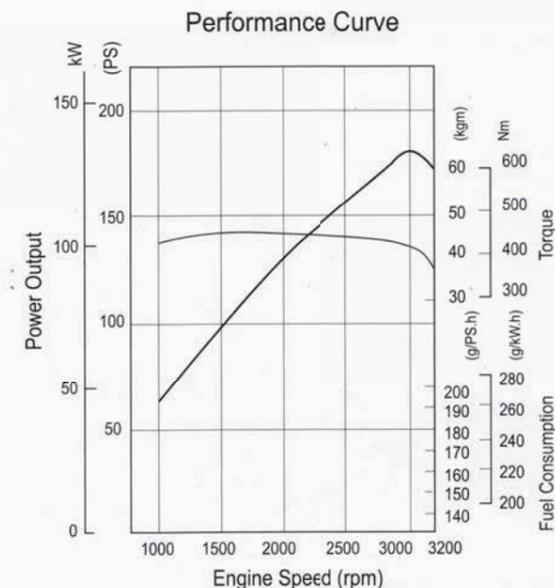

FUEL CAPACITY

200 litre

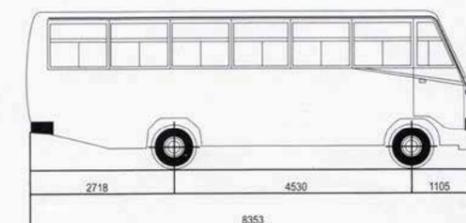

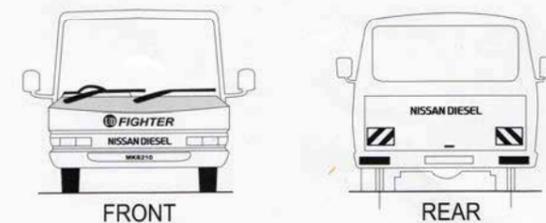

BRAKES

Service brake - dual-line air-over hydraulic brake
 Parking brake - mechanically operated with hand brake lever
 Exhaust brake - standard

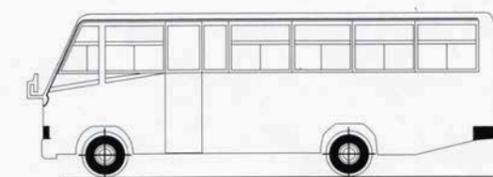

WARRANTY -1 year unlimited mileage

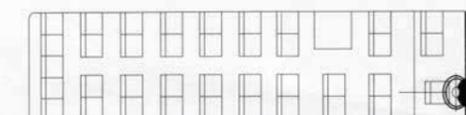

MKB210 - 37 Seater Bus

RIGHT HAND ELEVATION

LEFT HAND ELEVATION
