## Foreword

Thanks for choosing GAC Motor!

We are sure that GAC Motor will bring you greater driving pleasure. In order to keep your vehicle in good condition for a long time, please be sure to go to the GAC Motor authorized shop for regular maintenance in accordance with "Regular Maintenance Schedule" in this manual, where quality service will be provided for you at a reasonable price, and the technical personnel who have received professional training from GAC Motor Co., Ltd. (hereinafter referred to as "GAC Motor") will perform the maintenance according to the specific operation specification.

This manual is used as the voucher of vehicle warranty and maintenance. Please enter the user information carefully in this manual and keep the manual properly. You are requested to present this manual when you accept the vehicle maintenance or apply for the vehicle warranty in the GAC Motor authorized shop.

Best wishes for you: hope GAC Motor can bring you pleasant driving experience!

GAC Motor Co., Ltd.

## Notice

This manual is a voucher of GAC Motor vehicle warranty and maintenance. For the 3-R's (repair, replacement and refund) warranty items, the *3-R's Warranty Certificate of Household Automotive Products* and the *Instructions for 3-R's Warranty of Household Automotive Products* shall apply; for other warranty items, this manual shall apply. To ensure that you are entitled to the warranty and maintenance service provided by GAC Motor, please assist the staff of the authorized shop to fill in the user information columns of the "Warranty Registration Form" in this manual when picking up the vehicle. You will lose the vehicle warranty rights if you do not fill in the warranty registration form and make the warranty registration.

The image shows three overlapping forms from GAC Motor. The top form is the 'Warranty Registration Sheet', the middle is the 'First maintenance sheet', and the bottom is the 'Warranty certificate'. Each form has 'User information' and 'Vehicle information' sections. Arrows point from the text below to specific fields in these forms.

**Registration copy: warranty registration form**  
When picking up your vehicle, please fill in the "user information" columns and hand over the registration form to the authorized shop delivering your vehicle for archiving and entry of the information in GAC Trumpchi management system.

**First maintenance copy: first maintenance voucher**  
It is the first maintenance voucher of your vehicle. Please be sure to check whether the first maintenance voucher is provided when picking up the vehicle; if not, the vehicle will lose free first maintenance service and warranty right. In that case, please refuse to accept the vehicle.

**Warranty copy: warranty certificate**  
It is the warranty certificate of your vehicle. Please be sure to check whether the warranty certificate is provided; if not, the vehicle will have no warranty right. In that case, please refuse to accept the vehicle.

The copyright of this manual is reserved by GAC Motor Co., Ltd.. The Company is responsible for the revision, interpretation and explanation of this manual. The content and technical data in this manual are valid upon approved printing. GAC Motor Co., Ltd. reserves the right to suspend the use of certain content or technologies or change certain content or technical data without prior notice and does not assume any obligation caused.

## 2. Vehicle Handover

### 2.1 PDI

The vehicle described in the warranty certificate attached in this manual has been subjected to PDI in accordance with the provisions specified by GAC Motor Co., Ltd. Please ask for the PDI checklist from the authorized shop for specific inspection items.

Inspection date:

Inspector:

Stamp of  
authorized shop:

### 2.2 Vehicle handover

Before delivery, the GAC Motor authorized shop will inspect and clean the vehicle completely and submit the PDI checklist to you for your confirmation and signature.

If you are unsatisfied with the condition of the delivered vehicle, please inform the GAC Motor authorized shop and ask for readjustment.

Please be sure to check whether the first maintenance voucher and warranty certificate are provided when you accept the vehicle; if not, the vehicle will lose free first maintenance service and warranty right.

Following items handed over with vehicle (e.g.: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No)	
<input type="checkbox"/> <i>Owner's Manual</i> <input type="checkbox"/> <i>Warranty Manual</i> <input type="checkbox"/> <i>Driving Guide</i>	<input type="checkbox"/> First key <input type="checkbox"/> Second key <input type="checkbox"/> Spare tire <input type="checkbox"/> Warning triangle <input type="checkbox"/> Reflective vest <input type="checkbox"/> Driver's tools (refer to the <i>Owner's Manual</i> ) <input type="checkbox"/> First maintenance voucher <input type="checkbox"/> Completed PDI checklist
I have confirmed the items above and picked up the purchased vehicle.	
Signature of vehicle owner/ authorized person:	
* Please pay attention to checking, if any, the instruction manual attached to your vehicle.	

### 3. Warranty Instructions

#### 3.1 Warranty instructions

##### Warranty object

Vehicles manufactured by GAC Motor Co., Ltd., sold and serviced by the authorized shop of the Company.

 <b>NOTE</b>
<p>You will lose the vehicle warranty rights if you do not fill in the warranty copy and make the warranty registration.</p>

If the vehicle owner changes within the warranty period, the warranty is still valid.

##### Warranty period

The warranty period refers to the period or mileage calculated from the date the seller issues the purchase invoice.

Basic warranty period of GA8: 60 months or 150,000 km (whichever comes first).

##### Range and warranty period of consumables and wearing parts

Quality warranty period (whichever is earlier)	Quick-wear and Consumable Parts and Component
6 months / 10,000 km	Vehicle Battery, Remote Control Battery
3 months / 5,000 km	Air Filter, Oil Filter, Fuel Filter, A/C Filter, Bulb, Spark Plug, Fuse, and Tire
6 months / 5,000 km	Driving Belt, Friction Plate, Clutch Disc, Windshield Wiper, Brake Disc

##### Warranty coverage

The warranty liability of GAC Motor is to repair products and the warranty coverage includes:

1. Repair or replacement of parts being considered defective by GAC Motor.
2. Repair of paint on vehicle body being considered defective by GAC Motor.
3. Man-hour cost for the above repair

##### Warranty terms

1. When verifying the warranty items, the GAC Motor authorized shop will consider the following conditions that are outside the warranty coverage of the GAC Motor:
  - a) The vehicle is used in a country or region other than that where the vehicle is sold.
  - b) Any vehicle that is used as a taxi.
  - c) Vehicle damage caused by the maintenance, repair and adjustment performed in places other than the GAC Motor authorized shop.
  - d) Vehicle defects caused by use of parts, lubricating grease and liquids other than genuine ones provided by GAC Motor.
  - e) Vehicle damage caused by the driving methods other than those specified in the *Owner's Manual* or the operation outside the vehicle limit range (such as maximum load and seating capacity).
  - f) Vehicle damage caused by application of corrosive or low-quality cleaning agent.

- g) Modification, addition, adjustment and removal of the vehicle prohibited in the *Owner's Manual* without the approval of GAC Motor.
  - h) Vehicle damage caused by abnormal use, improper handling, negligence or the operation performed by the unqualified or unskilled driver and the application for races (such as car race or motor rally).
  - i) Sensation problems that do not affect the vehicle performance.
    - The warranty of GAC Motor does not cover the defective sensation problems that do not affect the quality, function or performance of products.
  - j) Any damage caused by inappropriate storage or transportation.
  - k) Vehicle defects caused by the natural disaster, fire, traffic accident, theft and the secondary damage incurred.
  - l) Vehicle damage caused by the environmental conditions other than the normal operation conditions of household automobiles (such as air pollution, chemical compound, guano, sea salt or other corrosive substances).
  - m) Vehicle corrosion or fault caused by the water immersion.
  - n) Vehicle surface corrosion caused by the flying stone or external scratch.
2. The warranty does not cover the maintenance items, fluids and auxiliary materials that are not necessary for the warranty and maintenance.
  3. The warranty does not cover the following incidental charges.

For example:

    - Expenses for communication, mediation, meal and accommodation because of fault.
    - Any relevant personal injury or property damage.
  4. The GAC Motor reserves the right to determine the repair methods and warranty coverage.
  5. All parts under the warranty coverage are the property of GAC Motor.
  6. The fuel, lubricating grease and fluids specified by GAC Motor shall be used.

 NOTE

To avoid the dispute over the 3-R's warranty liability, please note that:

- The dispute over the 3-R's warranty liability may arise if the vehicle is not sent to the GAC Motor authorized shop for regular maintenance and inspection according to the *Owner's Manual* and the *Warranty Manual*.
- The dispute over the 3-R's warranty liability may arise if the user changes the original state of fault deliberately after the fault occurs so that the fault cannot be identified or the user has fraudulent behavior.

### 3.2 Responsibilities of vehicle owner

1. Bring your vehicle to the GAC Motor authorized shop for first maintenance within 5,000 kilometers or 3 months (whichever comes first).
2. Make sure that your vehicle is maintained and inspected at the GAC Motor authorized shop according to the regular maintenance schedule in this manual.
3. Inspect and repair any fault of your vehicle at the GAC Motor authorized shop in time, which may be covered under the warranty.

#### NOTE

- The dispute over the 3-R's warranty liability may arise if the vehicle is sent to any places other than the GAC Motor authorized shop for maintenance and repair.
- The vehicle that has not received first maintenance (within 5,000 km or 3 months (whichever comes first)) may lose the right of free first maintenance.

Please bring this manual with you when you go to the GAC Motor authorized shop.

### 3.3 Obligations of GAC Motor authorized shop

Complete the items in the warranty certificate of this manual and explain the warranty procedures of GAC Motor when delivering a new vehicle to the user.

Explain the importance of regular maintenance for the vehicle fully to the user.

Ensure that any maintenance and repair can be completed according to the standard specified by GAC Motor, whether they are covered under the warranty or not.

For the damage or defects under the warranty coverage, the authorized shop should provide necessary vehicle repair or treatment to the user.

## 4. Maintenance Instructions

### 4.1 First maintenance agreement

The first maintenance must be completed within 5,000 kilometers or 3 months (whichever comes first).

The first maintenance is provided by GAC Motor free of charge. Please bring this manual to the GAC Motor authorized shop for first maintenance. The first maintenance includes:

1. Replacing the engine oil, the drain bolt washer and the oil filter.
  2. Inspecting and adding:
    - a. Coolant
    - b. Brake fluid
    - c. Windshield washer fluid
  3. Inspecting:
    - a. Battery charging condition
    - b. Operation of parking brake and brake pedal
    - c. The dust cover of transmission drive shaft for leakage or damage
    - d. Tightening condition of wheel fixing bolt
  - e. Wear pattern and pressure of the tire/ hub (including the spare tire) (replace it when necessary)
  - f. Whether the connection of steering tie rod is firm
  - g. The condition of the underbody
  - h. The condition of suspension ball joint and dust cover
  - i. The condition of suspension assembly
  - j. The operation of wiper/cleaner (adjust the nozzle when necessary)
  - k. The operation of door check/ dowel pin, door lock, engine hood/ trunk lid hinge and latch
  - l. The operation of interior and exterior lighting equipment and electric equipment of vehicle body
  - m.. The thickness and wear pattern of the brake disc and brake lining
  - n. The operation of headlamp
4. Cleaning:
    - a. A/C filter element
    - b. Air filter element
    - c. Drain hole of the front windshield drip channel
  5. Self-diagnosis:
    - a. Read OBD in-use monitoring data
    - b. Check the fault message with the professional diagnostic equipment

#### 4. Maintenance Instructions

#### 4.2 Regular maintenance schedule

If necessary, after inspection, perform the maintenance according to the procedures of addition, cleaning, adjustment, lubrication, repair or replacement.

Perform the maintenance according to the specified mileage or time interval (whichever comes first)	Kilometerx1000	20	40	60	80	100	120	140	160	180	200
	Months	12	24	36	48	60	72	84	96	108	120
★ Change the engine oil	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Replace the engine oil filter	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Inspect the spark plug	Exemption										
Replace the spark plug <sup>*1</sup>	Once every 40,000 kilometers										
Inspect the V-ribbed belt	Once every 20,000 kilometers or 12 months										
Replace the V-ribbed belt	Once every 60,000 kilometers or 36 months										
Replace the canister filter	Once every 60,000 kilometers or 36 months										
Inspect and clean the air filter element	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Clean the cover of air filter and replace the air filter element.	Once every 10,000 kilometers or 6 months										
Inspect the cooling system for leakage and add the coolant when necessary.	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
★ Change the engine coolant	Once every 40,000 kilometers or 24 months										
Inspect the transmission fluid	Exemption										
Change the ATF	First at 60,000 kilometers, and later every 40,000 kilometers										
Inspect the exhaust emission (inspect the leakage only; the exhaust is inspected during the vehicle annual inspection)	Once every 10,000 kilometers or 6 months										
★ Change the brake fluid	Once every 40,000 kilometers or 24 months										

Perform the maintenance according to the specified mileage or time interval (whichever comes first)	Kilometerx1000	20	40	60	80	100	120	140	160	180	200
	Months	12	24	36	48	60	72	84	96	108	120
Inspect the parking brake and the brake pedal (inspect the function and free travel of the pedal and parking brake)	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Inspect the brake disc and brake lining (inspect their thickness and wear pattern, and replace them when necessary)	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Inspect the wheel fixing bolt (inspect and tighten the bolt in accordance with the specified torque)	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Inspect the wear pattern of the tire/ hub (including the spare tire), carry out tire rotation and correct the tire pressure when necessary.	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Inspect the chassis bolt (inspect and tighten the bolt in accordance with the specified torque)	●	●	●	●	●	●	●	●	●	●	●
Inspect the brake system (inspect the brake fluid pipes for leakage and inspect the brake fluid level and add the brake fluid when necessary)	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Inspect the steering tie rod (inspect the clearance and whether the connection is firm)	●	●	●	●	●	●	●	●	●	●	●
Inspect the underbody (inspect the fuel pipe, brake fluid pipe and underbody protective layer for damage, and the exhaust pipe for leakage and the looseness)	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Replace the fuel hose	Once every 96 months (replace it in advance if any crack is found)										
Inspect the suspension ball joint and dust cover (the ball joint shall be not loose and the dust cover shall be free from oil leakage)	●	●	●	●	●	●	●	●	●	●	●
Inspect the suspension assembly (inspect that the bush is free from aging and breakage, the connecting bolt and nut are tightened to specified torque and the rod is free from deformation and crack.)	●	●	●	●	●	●	●	●	●	●	●
Inspect the wiper/washer (add the washer fluid and check the function of wiper/cleaner, adjust the nozzle when necessary)	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Clean the drain hole of the front windshield drip channel	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										

#### 4. Maintenance Instructions

Perform the maintenance according to the specified mileage or time interval (whichever comes first)	Kilometerx1000	20	40	60	80	100	120	140	160	180	200
	Months	12	24	36	48	60	72	84	96	108	120
Inspect the door check, dowel pin, door lock, engine hood/ trunk lid hinge and latch (inspect their functions and clean the dust on the check and lubricate the check)	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Inspect the interior and exterior lighting equipment and electric equipment of vehicle body	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Read OBD in-use monitoring data	Synchronized with vehicle maintenance or repair										
Self-diagnosis (check the fault message with the professional diagnostic equipment)	The self-diagnosis is synchronized with vehicle maintenance or repair										
Inspect the battery (inspect the battery condition with the special tool and inspect whether the connection between the positive and negative poles of battery is firm and the battery voltage.)	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Inspect the headlamp (inspect the lamplight and adjust it when necessary)	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Inspect the A/C filter element	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										
Replace the A/C filter element	●	●	●	●	●	●	●	●	●	●	●
Test run (performance inspection)	Each time maintenance is done										
Inspect the following items visually											
The dust cover of transmission drive shaft (for leakage or damage)	First at 5,000kilometers or 3months, and later every 5,000kilometers or 6 months										

★: The amount (of engine oil, coolant and brake fluid) shall be inspected properly before driving.

\*1: If there is impurity in the gasoline used, please replace the spark plug frequently. If the engine idle speed is instable, please replace the spark plug immediately.

### 4.3 Supplementary maintenance under severe driving conditions

The maintenance cycle is established based on the normal driving conditions, therefore if the vehicle is used under one or more severe driving conditions, the maintenance frequency for certain maintenance items should be increased or the maintenance cycle should be shortened.

The severe conditions include the followings:

1. The vehicle often runs for a short trip.
2. The engine is kept running at an idle speed constantly and the vehicle runs intermittently (for example: the vehicle is used as a taxi)
3. The vehicle runs in a muddy, dusty area or environment.
4. The vehicle is used to tow the trailer frequently or to load the luggage on the roof luggage rack during running, or the vehicle runs on a mountain road
5. The vehicle runs for a long time in extreme cold (below the freezing point) or hot (higher than 35°C) climates.
6. The vehicle runs more than 20,000 kilometers every year or runs at a high speed frequently.
7. The vehicle runs a long distance at a low speed.

#### 4. Maintenance Instructions

Item	Severe conditions	Maintenance requirements
Change the engine oil and replace the oil filter	1, 2, 3, 5, 7	2,500 km or 3 months
Change the engine coolant	3, 5, 6	40,000 kilometers
Inspect the wheel fixing bolt	1, 2, 3, 4, 5, 6	5,000 km or 3 months
Inspect the chassis bolt (inspect and tighten the bolt in accordance with the specified torque)	1, 2, 3, 4, 5, 6	10,000 km or 6 months
Inspect the steering tie rod (inspect the clearance and whether the connection is firm)	1, 2, 3, 4, 5, 6	10,000 km or 6 months
Inspect the suspension ball joint and dust cover (the ball joint shall be not loose and the dust cover shall be free from oil leakage)	1, 2, 3, 4, 5, 6	10,000 km or 6 months
Inspect the suspension assembly (inspect that the bush is free from aging and breakage, the connecting bolt and nut are tightened to specified torque and the rod is free from deformation and crack.)	1, 2, 3, 4, 5, 6	10,000 km or 6 months
Replace the A/C filter element	3, 5	10,000 kilometers

**Note:**

The maintenance frequency of air filter and V-ribbed belt shall be increased when the vehicle is used under severe conditions.
