

Foreword

Thanks for choosing GAC Motor!

We are sure that GAC Motor will bring you greater driving pleasure. In order to keep your vehicle in good condition for a long time, please be sure to go to the GAC Motor authorized shop for regular vehicle maintenance in accordance with "Regular Maintenance Schedule" in this manual, where quality service will be provided for you at a reasonable price, and the technical personnel who have received professional training from GAC Motor Co., Ltd. (hereinafter referred to as "GAC Motor") will perform the maintenance according to the specific operation specification.

This manual is used as the voucher of vehicle warranty and maintenance. Please enter the user profile carefully in this manual and keep the manual properly. You are requested to present this manual when you accept the vehicle maintenance or apply for the vehicle warranty in the GAC Motor authorized shop.

Best wishes for you: hope GAC Motor can bring you pleasant driving experience!

GAC Motor Co., Ltd.

Notice

To ensure that you are entitled to the warranty and maintenance service provided by GAC Motor, please assist the staff of the authorized shop to fill in the user profile columns of the “Warranty Registration Form” in this manual when picking up the vehicle. You will lose the vehicle warranty rights if you do not fill in the warranty registration form and make the warranty registration.

Warranty Registration Sheet

2. Vehicle Handover

2.1 PDI

The vehicle described in the warranty certificate attached in this manual has been subjected to PDI in accordance with the provisions specified by GAC Motor Co., Ltd. Please ask for the PDI checklist from the authorized shop for specific inspection items.

Inspection date:

Inspector:

Stamp of authorized shop:

2.2 Vehicle handover

Before delivery, the GAC Motor authorized shop will inspect and clean the vehicle completely and submit the PDI checklist to you for your confirmation and signature.

If you are unsatisfied with the condition of the delivered vehicle, please inform the GAC Motor authorized shop and ask for readjustment.

Please be sure to check whether the first maintenance voucher and warranty certificate are provided when you accept the vehicle; if not, the vehicle will lose free first maintenance service and warranty right.

3. Warranty Instructions

3.1 Warranty instructions

Warranty object

Vehicles manufactured by GAC Motor Co., Ltd., sold and serviced by the authorized shop of the Company.

You will lose the vehicle warranty rights if you do not fill in the warranty copy and make the warranty registration.

The warranty service is provided to the new vehicle owner (if the vehicle owner changes within the warranty period, the warranty is still valid).

Warranty period

The warranty period refers to the period or mileage calculated from the date the seller issues the purchase invoice.

Basic warranty period of GS4 : 60 months or 150,000 km (whichever comes first).

Warranty period of vulnerable and consumable parts:

| Quality warranty period (whichever is earlier) | Quick-wear and Consumable Parts and Component |
|--|---|
| 6 months / 10,000 km | Vehicle Battery, Remote Control Battery |
| 3 months / 5,000 km | Air Filter, Oil Filter, Fuel Filter, A/C Filter, Bulb, Spark Plug, Fuse, and Tire |
| 6 months / 5,000 km | Driving Belt, Friction Plate, Clutch Disc, Windshield Wiper, Brake Disc |

Warranty coverage

The warranty liability of GAC Motor is to repair products and the warranty coverage includes:

1. Repair or replacement of parts being considered defective by GAC Motor.
2. Repair of paint on vehicle body being considered defective by GAC Motor.
3. Man-hour cost for the above repair

Warranty terms

1. When verifying the warranty items, the GAC Motor authorized shop will consider the following conditions that are outside the warranty coverage of the GAC Motor:
 - a) The vehicle is used in a country or region other than that where the vehicle is sold.
 - b) Any vehicle that is used as a taxi.
 - c) Vehicle damage caused by the maintenance, repair and adjustment performed in places other than the GAC Motor authorized shop.
 - d) Vehicle defects caused by use of parts, lubricating grease and liquids other than genuine ones provided by GAC Motor.
 - e) Vehicle damage caused by negligence, improper handling and the driving methods other than those specified in the *Owner's Manual* or the operation outside the vehicle limit range (such as maximum load and seating capacity).
 - f) Vehicle damage caused by application of corrosive or low-quality cleaning agent.

- g) Modification, addition, adjustment and removal of the vehicle prohibited in the *Owner's Manual* without the approval of GAC Motor.
 - h) Vehicle damage caused by abnormal use, improper handling, negligence or the operation performed by the unqualified or unskilled driver and the application for races (such as car race or motor rally).
 - i) Sensation problems that do not affect the vehicle performance.
 - The warranty of GAC Motor does not cover the defective sensation problems that do not affect the quality, function or performance of products.
 - j) Any damage caused by inappropriate storage or transportation.
 - k) Vehicle defects caused by the natural disaster, fire, traffic accident, theft and the secondary damage incurred.
 - l) Vehicle damage caused by the environmental conditions other than the normal operation conditions of household automobiles (such as air pollution, chemical compound, guano, sea salt or other corrosive substances).
 - m) Vehicle corrosion or fault caused by the water immersion.
 - n) Vehicle surface corrosion caused by the flying stone or external scratch.
2. The warranty does not cover the maintenance items, fluids and auxiliary materials that are not necessary for the warranty and maintenance.
 3. The warranty does not cover the following incidental charges.
For example:
 - Expenses for communication, mediation, meal and accommodation because of fault.
 - Any relevant personal injury or property damage.
 4. The GAC Motor reserves the right to determine the repair methods and warranty coverage.
 5. All parts under the warranty coverage are the property of GAC Motor.
 6. The fuel, lubricating grease and fluids specified by GAC Motor shall be used.

CAUTION

To avoid the dispute over the 3-R's warranty liability, please note that:

- The dispute over the 3-R's warranty liability may arise if the vehicle is not sent to the GAC Motor authorized shop for regular maintenance and inspection according to the *Owner's Manual* and the *Warranty Manual*.
- The dispute over the 3-R's warranty liability may arise if the user changes the original state of fault deliberately after the fault occurs so that the fault cannot be identified or the user has fraudulent behavior.

3.2 Responsibilities of vehicle owner

1. Bring your vehicle to the GAC Motor authorized shop for first maintenance within 5,000 kilometers or 3 months (whichever comes first).
2. Make sure that your vehicle is maintained and inspected at the GAC Motor authorized shop according to the regular maintenance schedule in this manual.
3. Inspect and repair any fault of your vehicle at the GAC Motor authorized shop in time, which may be covered under the warranty.

CAUTION

- The dispute over the 3-R's warranty liability may arise if the vehicle is sent to any places other than the GAC Motor authorized shop for maintenance and repair.
- The vehicle that has not received first maintenance (within 5,000 km or 3 months (whichever comes first)) may lose the right of free first maintenance.

Please bring this manual with you when you go to the GAC Motor authorized shop.

3.3 Obligations of GAC Motor authorized shop

Complete the items in the warranty certificate of this manual and explain the warranty procedures of GAC Motor when delivering a new vehicle to the user.

Explain the importance of regular maintenance for the vehicle fully to the user.

Ensure that any maintenance and repair can be completed according to the standard specified by GAC Motor, whether they are covered under the warranty or not.

For the damage or defects under the warranty coverage, the authorized shop should provide necessary vehicle repair or treatment to the user.

4. Maintenance Instructions

4.1 First maintenance agreement

The first maintenance must be completed within 5,000 kilometers or 3 months (whichever comes first).

The first maintenance is provided by GAC Motor free of charge. Please bring this manual to the GAC Motor authorized shop for first maintenance. The first maintenance includes:

1. Replacing the engine oil, the drain bolt washer and the oil filter.
2. Adding the cleaning agent of fuel system (for vehicle models with in-cylinder DFI)
3. Inspecting and adding:
 - a. transmission fluid
 - b. coolant
 - c. brake fluid
 - d. windshield washer fluid
4. Inspecting:
 - a. battery charging condition
 - b. operation of parking brake and brake pedal
 - c. the dust cover of transmission drive shaft for leakage or damage
 - d. tightening condition of wheel fixing bolt
 - e. wear pattern and pressure of the tire/ hub (including the spare tire) (replace it when necessary)
 - f. whether the connection of steering tie rod is firm
 - g. condition of the underbody
 - h. condition of suspension ball joint and dust cover
 - i. condition of suspension assembly
 - j. operation of wiper/washer (adjust the nozzle when necessary)
 - k. operation of door check, dowel pin, door lock, engine hood/ liftgate hinge and latch
 - l. operation of interior and exterior lights and electrical consumers of vehicle body
 - m. thickness and wear pattern of the brake disc and brake lining
 - n. operation of headlamp
5. Cleaning:
 - a. A/C filter element
 - b. air filter element
 - c. drain hole of the front windshield drip channel
6. Self-diagnosis (check the fault message with the professional diagnostic equipment)

4.2 Regular maintenance schedule

If necessary, after inspection, perform the maintenance according to the procedures of addition, cleaning, adjustment, lubrication, repair or replacement.

| Perform the maintenance according to the specified mileage or time interval (whichever comes first) | Kilometer x 1000 | 20 | 40 | 60 | 80 | 100 | 120 | 140 | 160 | 180 | 200 |
|---|---|---|----|----|----|-----|-----|-----|-----|-----|-----|
| | Months | 12 | 24 | 36 | 48 | 60 | 72 | 84 | 96 | 108 | 120 |
| ★ Change the engine oil | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Replace the engine oil filter | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the spark plug | Every 20,000 kilometers | | | | | | | | | | |
| Replace the spark plug ^{*1} | Once every 60,000 kilometers | | | | | | | | | | |
| Inspect the V-ribbed belt | Every 20,000 km or 12 months | | | | | | | | | | |
| Replace the V-ribbed belt | Once every 60,000 kilometers or 36 months | | | | | | | | | | |
| Replace the fuel filter ^{*2} | Every 40,000 kilometers | | | | | | | | | | |
| Replace the fuel pipeline | Once every 96 months (replace it in advance if any crack is found) | | | | | | | | | | |
| Replace the canister filter | Every 60,000 kilometers or 36 months | | | | | | | | | | |
| Add the fuel system cleaning agent | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months (for vehicle models with in-cylinder DFI) | | | | | | | | | | |
| Inspect and clean the air filter | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Clean the cover of air filter and replace the air filter element | Once every 10,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the cooling system for leakage and add the coolant when necessary | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| ★ Change the engine coolant | Once every 40,000 kilometers or 24 months | | | | | | | | | | |
| Inspect the transmission fluid | G-DCT | Inspect it every 60,000 kilometers, and replace or add it if necessary | | | | | | | | | |
| | AT | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | |
| Change the transmission fluid | MT | Once every 50,000 kilometers | | | | | | | | | |
| | AT | First at 60,000 kilometers, and later every 40,000 kilometers | | | | | | | | | |

| Perform the maintenance according to the specified mileage or time interval (whichever comes first) | Kilometer x 1000 | 20 | 40 | 60 | 80 | 100 | 120 | 140 | 160 | 180 | 200 |
|---|---|----|----|----|----|-----|-----|-----|-----|-----|-----|
| | Months | 12 | 24 | 36 | 48 | 60 | 72 | 84 | 96 | 108 | 120 |
| Change the PTO oil (for 4WD models) | Maintenance free | | | | | | | | | | |
| Change the rear differential reducer oil (for 4WD models) | Every 50,000 kilometers | | | | | | | | | | |
| Inspect the propeller shaft connecting bolt and intermediate bearing bracket (for 4WD models) | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the exhaust emission (inspect the leakage only; the exhaust is inspected during the vehicle annual inspection) | Every 10,000 kilometers or 6 months | | | | | | | | | | |
| ★ Change the brake fluid | Once every 40,000 kilometers or 24 months | | | | | | | | | | |
| Inspect the parking brake and the brake pedal (inspect the function and free travel of the pedal and parking brake, the wear pattern and fastening condition of the parking brake cable, and thickness and wear pattern of parking brake lining; readjust the clearance; replace them if necessary) | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the brake disc and brake lining (inspect their thickness and wear pattern, and replace them when necessary) | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the wheel fixing bolt (inspect and tighten the bolt in accordance with the specified torque) | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the wear pattern of the tire/ hub (including the spare tire), carry out tire rotation and correct the tire pressure when necessary | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the chassis bolt (inspect and tighten the bolt in accordance with the specified torque) | • | • | • | • | • | • | • | • | • | • | • |
| Inspect the brake system (inspect the brake fluid pipes for leakage and inspect the brake fluid level and add the brake fluid when necessary) | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the steering tie rod (inspect the clearance and whether the connection is firm) | • | • | • | • | • | • | • | • | • | • | • |
| Inspect the underbody (inspect the fuel pipe, brake fluid pipe and underbody protective layer for damage, and the exhaust pipe for leakage and the looseness) | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the suspension ball joint and dust cover (the ball joint shall be not loose and the dust cover shall be free from oil leakage) | • | • | • | • | • | • | • | • | • | • | • |

| Perform the maintenance according to the specified mileage or time interval (whichever comes first) | Kilometer x 1000 | 20 | 40 | 60 | 80 | 100 | 120 | 140 | 160 | 180 | 200 |
|--|---|----|----|----|----|-----|-----|-----|-----|-----|-----|
| | Months | 12 | 24 | 36 | 48 | 60 | 72 | 84 | 96 | 108 | 120 |
| Inspect the suspension assembly (inspect that the bush is free from aging and breakage, the connecting bolt and nut are tightened to specified torque and the rod is free from deformation and crack.) | | ● | ● | ● | ● | ● | ● | ● | ● | ● | ● |
| Inspect the wiper/washer (add the washer fluid and check the function of wiper/cleaner, adjust the nozzle when necessary) | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Clean the drain hole of the front windshield drip channel | Every 10,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the door check, dowel pin, door lock, engine hood/ trunk lid hinge and latch (inspect their functions and lubricate them) | Every 10,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the interior and exterior lights and electrical consumers of vehicle body | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Self-diagnosis (check the fault message with the professional diagnostic equipment) | Every 10,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the battery (inspect the battery condition with the special tool and inspect whether the connection between the positive and negative poles of battery is firm) | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the headlamp (inspect the lamplight and adjust it when necessary) | Every 10,000 kilometers or 6 months | | | | | | | | | | |
| Inspect the A/C filter element | Every 10,000 kilometers or 6 months | | | | | | | | | | |
| Replace the A/C filter element | ● | ● | ● | ● | ● | ● | ● | ● | ● | ● | ● |
| Test run (performance inspection) | Each time maintenance is done | | | | | | | | | | |
| Inspect the following items visually | | | | | | | | | | | |
| The dust cover of transmission drive shaft (for leakage or damage) | First at 5,000 kilometers or 3 months, and later every 5,000 kilometers or 6 months | | | | | | | | | | |

★: The amount (of engine oil, coolant and brake fluid) shall be inspected properly before driving.

*1: If there is impurity in the gasoline used, please replace the spark plug frequently. If the engine idle speed is instable, please replace the spark plug immediately.

*2: If there is impurity in the gasoline used, please replace the fuel filter frequently. If it is found that the fuel filter is blocked by impurities, replace the fuel filter immediately.

4.3 Supplementary maintenance under harsh driving conditions

The maintenance cycle is established based on the normal driving conditions, therefore if the vehicle is used under one or more severe driving conditions, the maintenance frequency for certain maintenance items should be increased or the maintenance cycle should be shortened.

The harsh conditions include the followings:

1. The vehicle often runs for a short trip (not more than 8 km).
2. The engine is kept running at an idle speed constantly and the vehicle runs intermittently (for example: the vehicle is used as a taxi).
3. The vehicle runs in a muddy, dusty area or environment.
4. The vehicle is used to tow the trailer frequently or to load the luggage on the roof luggage rack during running, or the vehicle runs on a mountain road.
5. The vehicle runs for a long time in extreme cold (below 0°C) or hot (above 35°C) climates.
6. The vehicle runs for more than 20,000 kilometers every year or runs at a high speed frequently.
7. The vehicle runs for a long distance at a low speed.

| Item | Harsh conditions | Maintenance requirements |
|--|------------------|--------------------------|
| Change the engine oil | 1, 2, 3, 5, 7 | 2,500 km or 3 months |
| Change the engine coolant | 3, 5, 6 | 40,000 km |
| Inspect the wheel fixing bolt | 1, 2, 3, 4, 5, 6 | 5,000 km or 3 months |
| Inspect the chassis bolt (inspect and tighten the bolt in accordance with the specified torque) | 1, 2, 3, 4, 5, 6 | 10,000 km or 6 months |
| Inspect the steering tie rod (inspect the clearance and whether the connection is firm) | 1, 2, 3, 4, 5, 6 | 10,000 km or 6 months |
| Inspect the suspension ball joint and dust cover (the ball joint shall be not loose and the dust cover shall be free from oil leakage) | 1, 2, 3, 4, 5, 6 | 10,000 km or 6 months |
| Inspect the suspension assembly (inspect that the bush is free from aging and breakage, the connecting bolt and nut are tightened to specified torque and the rod is free from deformation and crack.) | 1, 2, 3, 4, 5, 6 | 10,000 km or 6 months |
| Inspect the A/C filter element | 3, 5 | 10,000 km |

Note:

The maintenance frequency of air filter and V-ribbed belt shall be increased when the vehicle is used under harsh conditions.

0W-30 oil (when 5W-30 oil is used originally) or 0W-40 oil (when 5W-40 oil is used originally) is recommended in cold climates.

4.4 Regular maintenance record

The GAC Motor sets a special window to accept your feedback. Therefore, if you find any defects in your GAC Motor vehicle, please fill in the attached form and report it to the related competent department of GAC Motor.

GAC Motor acceptance window:

Tel: 400 - 158 - 9999

Fax: 020 - 3920 - 6800

GAC service E-mail: gacservice@gacmotor.com

Add: No. 633, East Road of Jinshan Avenue, Panyu District, Guangzhou City, China

GAC Motor Co., Ltd.

5. Defect Report

Owner's Report on Automobile Product Defects
(valid if copied)

A. Owner profile

| | | | |
|---------------------------|--|-----------------|--|
| Name (Enterprise name) | | | |
| ID number | | Contact person* | |
| Address | | | |
| Postcode | | E-mail | |
| Tel | | Fax | |

*: If the owner is a natural person, fill in the ID number or passport number in the ID number column; if the owner is an enterprise or public institution, fill in the entity code or legal person code of the enterprise and public institution.

B. Vehicle Information

| | | | |
|---------------------|--|----------------------------------|--------------|
| Brand | | | |
| Type | | | |
| Design | | Model | |
| Engine number | | Frame number | |
| VIN | | | |
| Vehicle category | | Body type* | |
| Production date | | Purchase date | |
| Mileage* | | Is the vehicle a second-hand one | A. Yes B. No |
| Engine displacement | | Number of cylinders | |
| Drive mode* | | Whether ABS is installed | A. Yes B. No |
| Seat belt type* | | Airbag type* | |

: the items can be left blank.

Body type refers to: coupe, sedan, station wagon, truck and van.

Drive mode refers to: front-wheel drive, rear-wheel drive and four-wheel drive

5. Defect Report

C. Information on authorized shop

| | | | |
|-----------------|--|--------|--|
| Enterprise name | | | |
| Address | | | |
| Postcode | | E-mail | |
| Tel | | Fax | |

D. Defect description

Defective system (such as brake system and steering system) and related descriptions:

E. Status when the defect is found

Time:

Vehicle mileage:

Vehicle speed:

Others:

F. Whether the manufacturer or the competent department responsible for the management of vehicle recall in China is involved:

A. Yes B. No

G. Description of traffic accident

Whether collision and fire occur: _____

Which airbag deploys: _____

Fatalities: _____

Estimated direct economic loss: _____

Others: _____

H. Description of tire problem (if any)

Vehicle owner (stamp)

DD/MM/YYYY

6. Ownership Change

| Ownership Change Record | |
